# Yearly Service Package Information

## 2025 Yearly Package

### Yearly Package

Our goal with this option is to provide consistency and a wider variety of services for our clients throughout the year. Having this option ensures all your outdoor needs are taken care of at a consistent monthly rate. This monthly rate will stay the same throughout the entire year, making it easier for our clients to know what they're paying each month rather than having payment fluctuations depending on the season/time of year. These services will add value and longevity to your outdoor space, making it more enjoyable and usable at all times.

### Why Readers?

Choosing Readers for is a decision rooted in quality and care. With a proven track record of timely and thorough service, we prioritize your safety and convenience above all. Our commitment to reliability and our personalized approach sets us apart, ensuring your experience is smooth and stress-free.

### How much does it cost?

Readers Yearly Services are priced based on your property's size, services requested, all charged at a monthly rate. You pay for the services requested within your yearly rate and the cost is spread over the entire year to provide consistency on a monthly basis. No surprise costs or hidden fees. Services can be added if needed and can be billed separately if required. 60 days notice is required to cancel the yearly package if required.

### What are the next steps?

As we look ahead, we do begin our planning for 2025 services at this time. At Readers, we do have a limited number of clients that we are able to service each season. Contact us for a quotation of your property today and be added to our service list before we book up for the upcoming season.

*Packages can include, but are not limited to: lawn care, snow removal, fertilization, spring (aeration, power raking, and dethatching) and fall leaf cleanups, window and eavestrough cleaning.*
